PROFILE SUMMARY

Motivated Computer Engineering Technology student and Front-End Web Developer with practical knowledge of HTML5, CSS3, and JavaScript. Experienced in building responsive, user-friendly websites with clean and modern designs. Eager to contribute to real-world projects, gain industry experience, and grow as a software engineering professional.

KEY PROJECTS

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript

- Designed and developed a fully responsive personal portfolio website to showcase web development projects and technical skills.
- Created an intuitive, user-friendly UI/UX optimized across desktop, tablet, and mobile devices using CSS Grid and Flexbox.
- Implemented interactive UI components and dynamic DOM elements using modern JavaScript.
- Successfully published and maintained the live website.

SKILLS & COMPETENCIES

Front-End Web Development

- Solid knowledge of semantic HTML5 and CSS3 for modular web page design.
- Core JavaScript knowledge including DOM manipulation, event handlers, and web logic.
- Proficient in mobile-first responsive design using Media Queries, CSS Grid, and Flexbox.
- Strong commitment to writing clean, maintainable, and readable code.

Developer Tools & Workflows

- Proficient in Visual Studio Code for development and Chrome DevTools for debugging.
- Familiarity with translating design wireframes into functional web pages.
- Basic understanding of Search Engine Optimization (SEO) and web accessibility principles.

ACHIEVEMENTS & ACTIVITIES

- Successfully created and deployed a complete personal web portfolio.
- Completed multiple front-end practice projects focusing on responsive design and UI interaction.
- Actively enhancing technical expertise in modern web development frameworks and engineering concepts.
